

Joaquin Kristof

Houston, TX | joaquin kristof007@gmail.com | (832) 292-0313

EDUCATION

TEXAS A&M UNIVERSITY

Bachelor of Science in Multidisciplinary Engineering Technology

Mechatronics Track

Engineering Honors Program

GPA: 3.192

RELEVANT COURSEWORK: CIRCUIT ANALYSIS, DIGITAL ELECTRONICS, METALLIC MATERIALS, ELECTRICITY & MAGNETISM

College Station, TX

Expected: May 2029

PROFESSIONAL EXPERIENCE

AUTODESK

Houston, TX

Design and Make Ambassador

February 2026 - Present

- Promoted Autodesk tools through workshops and coordination with campus leader
- Strengthened technical communication skills by explaining complex design concepts to diverse audiences
- Engaged students on LinkedIn to promote Autodesk applications, reaching 600+ impressions

THREAT ANALYSIS GROUP

Houston, TX

Crime Analysis Assistant Intern

May 2023 - August 2023

- Analyzed 100+ local police incident reports and entered datasets into Excel to build crime trend dashboards
- Generated security metric reports to improve consulting team efficiency
- Streamlined data categorization, reducing report preparation time

EXTRACURRICULARS

Aggie Robotics, TEXAS A&M UNIVERSITY

January 2026 - Present

- Engineered and assembled a competitive robot for local 1 pound plastic combat robot competitions
- Researched and prototyped robot designs for 1 pound plastic combat robots
- Led discussions in team for robot designs and strategies

Ignitors Rocketry Mentorship, TEXAS A&M UNIVERSITY

February 2026 - Present

- Participated in weekly lessons on rocket design fundamentals
- Built three rockets over the course of the mentorship to showcase the content learned
- Participated in extra propulsion-specific lessons to learn more about rocket propulsion
- Used OpenRocket to calculate apogee, time to apogee, flight time, etc. for rockets built

FIRST Robotics Team, ENERGY INSTITUTE HIGH SCHOOL

October 2022 - March 2023

- Engineered and assembled a competitive robot for FIRST Robotics competitions
- Manufactured robot components under mentor guidance for regional and international events
- Compiled competitor data in Excel to inform team strategy

PROJECTS

Target-Apogee Rocket Design | OpenRocket, Onshape

April 2026 - Present

- Designed and simulated a model rocket to achieve a target apogee while meeting dimensional constraints
- Developed CAD model and iterated fin and body geometry based on flight performance and stability analysis
- Utilized OpenRocket to a rocket with an apogee of 300 meters, with a C5 motor and a max length of 7.5 inches

ADDITIONAL INFORMATION

- Skills: SolidWorks, Autodesk Fusion, 3D Printing, JavaScript, and Python
- Certifications: Certified SolidWorks Associate in CAD Design, Autodesk Certified User: Fusion
- Languages: English, Spanish
